Dear Kindergarten Parents,

Sauganash administration and the kindergarten team would like to provide parents with a snapshot of “A Day in the Life of a Sauganash Kindergartener.” In kindergarten, it is our goal to utilize flexible groupings to best service the students and provide the most effective instruction possible. The students are in smaller groups during language arts & math instruction, so they can receive the most attention during these core subject areas. Each classroom has a main teacher and a PTO aide. In addition, CPS approved volunteers are encouraged to support the small group instruction. Below you will see a breakdown of the kindergarten day:
