## Sauganash Newsletter - March 18th Update

### ISBE Update - During School Closures

Illinois State Board of Education (ISBE) is working on improvements and verbiage for the at home learning as we continue with the school closures. ISBE is communicating with schools about grading practices and teachers providing points for completed work at home. This is a great step as we move forward with the closure and reward the students for a job well done! With this in the infancy stage we do not have all the details but the thought is all of the graded work would only count toward improving student's letter grades. Student work during this time will not negatively impact student's grade, as these days are not instructional days. We will post on our website exactly how this will look but it will be some sort of "effort" "participation" scores for the students working hard at home.

We will continue to communicate updates and miss all of you so very much. Our school community is super strong and that has been apparent these last couple weeks and days. Please continue to stay home, stay safe, and stay positive.....and please reach out to your teachers for any questions!

Additionally, we have been diligent in updating the school website multiple times daily, so please continue to make that your number one resource.

### **School Cleanliness**

We have been aggressively cleaning the school building from top to bottom. Carlos, Angel, Rosa, and Maria have been rockstars during the closure. Hosing down all bathrooms with bleach, cleaning of gym and cafeteria, complete classroom disinfecting, and more. A huge shout out to them during this time.

### **Spelling Bee - Congratulations**

We wanted to recognize Shrutik De (8th Grade) for making the City-wide Spelling Bee. The competition took place two weeks ago at Hyde Park High School and Shrutik made Sauganash School very proud. Shrutik finished in the Top 20 in all of CPS!! Congratulations!!
